

Riunione Annuale dei membri di NeuroMI

20 Novembre 2019

edificio U6, Università degli Studi di Milano-Bicocca, Milano

Programma scientifico

- 9:30** **Registrazione e allestimento poster**
- 10:00-10:15** **Presentazione delle attività del Centro e programmi futuri (Carlo Ferrarese)**
- 10:15-12:45** **Comunicazioni orali**

10:15	Formicola Beatrice	Differential exchange of multifunctional liposomes between glioblastoma cells and healthy astrocytes via tunnelling nanotubes	Biotechnology and Nanomedicine
10:30	Beghi Ettore	Risk of ALS in professional soccer players	Clinical Neuroscience
10:45	Sala Gessica	Effects of Direct Current Stimulation: in vitro study on human neuroblastoma SH-SY5Y cells	Clinical Neuroscience
11:00	Sacheli Lucia Maria	Do 'mirror neurons' get old? A functional MRI study on action prediction in young elderly participants	Cognitive and Behavioural Neuroscience
11:15	Toraldo Alessio	Many neglect patients do not have neglect	Cognitive and Behavioural Neuroscience
11:30	Ciocca Gianluigi	Artificial intelligence for food recognition	Computational and Systems
11:45	Agostini Simone	Circulatory miR-223-3p discriminates between Parkinson's and Alzheimer's patients	Molecular and Cellular Neuroscience
12:00	Alberti Paola	Nerve excitability testing as the link between anatomy and physiology: axonal excitability testing to test in vivo mechanisms of peripheral nerve damage	Molecular and Cellular Neuroscience
12:15	Conti Elisa	Beta-amyloid promotes monocytes chemotaxis in Alzheimer's disease: the role of TSPO	Molecular and Cellular Neuroscience
12:30	Chirico Giuseppe	Non-linear microscopy as a tool for medical histopathology: a pilot study	Neuroimaging and Methodological research.

- 12:45-13:00** **Elezione di 1 membro esterno (non-UNIMIB) del Comitato Scientifico**
- 13:00-14:00** **Discussione poster**
